Sutton Lodge Care Home is situated near the centre of Sutton in Ashfield, in our well maintained private gardens which contain water feature and fish pond.

The Home is finished to a high standard and is equipped to cater for all the needs of the elderly and physically disabled. We are registered to admit both elderly and younger physically disabled Residents, as well as providing a 24 bedded extra care unit dedicated to Residents with dementia.

We encourage our Residents to remain as socially active as possible; we offer lots of trips in our minibus to garden centres, into the Derbyshire countryside, or to the seaside. Regular activities within the Home include bingo, keep fit, film nights, and musical entertainment. Visitors are of course welcome throughout the day.

Our friendly staff are all trained to a high standard to meet the Commission for Social Care Inspection (C.S.C.I.) requirements, with our Manager having extensive experience in the care sector and holding N.V.Q. level 4 in care. The qualified cooks cater for all tastes and offer extensive menus as well as special diets and home baking.

At Sutton Lodge we believe in maintaining individuality, giving choices, respecting privacy and dignity for all and would like to welcome you to visit us whether it be for a day, respite care or long term care.
