Sutton Manor is a small and friendly Care Home situated in a central position in Sutton in Ashfield providing easy access to shops and other facilities.

We have ample facilities at our well kept home, with accommodation for up to 45 Residents; we even have two double rooms.

We are very proud of the friendly and relaxed atmosphere at our Home, with our Residents being encouraged to bring personal possessions with them to make them feel even more at home and we encourage social activities with all our Residents.

Residents with special dietary needs can be catered for, as for any other special needs we do our very best to see that they are met to their satisfaction.

We run special party nights for both Residents and their families throughout the year and organise special resident outings during the summer.

At Sutton Manor we believe in maintaining individuality, giving choices, respecting privacy and dignity for all. Our helpful and well trained management and staff would like to welcome you to visit us whether it be for a day, respite care or long term care.
